

Heroes of Green Future

For Erasmus+ Project MiniEduAgri

Nikolas

Eleni

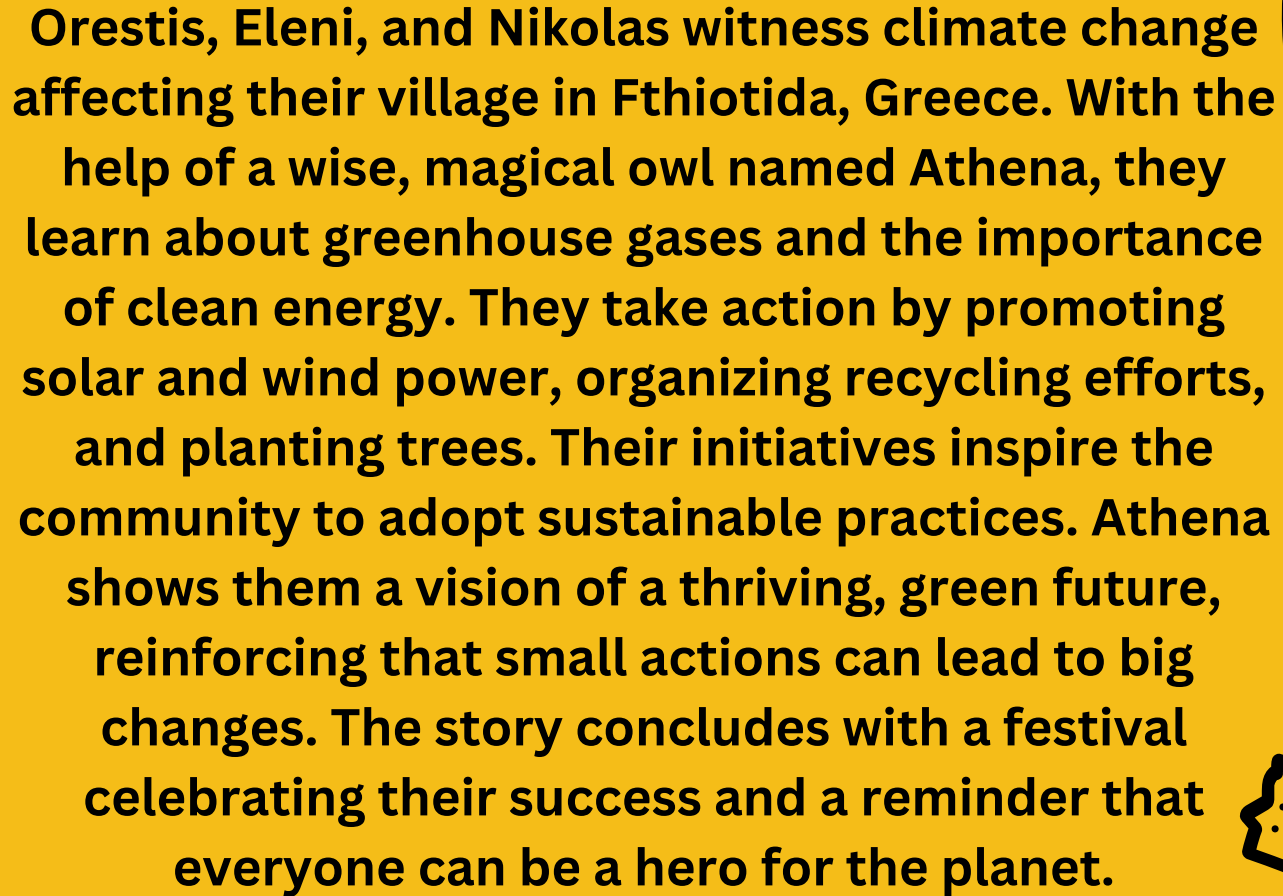

Orestis

Athena

Orestis, Eleni, and Nikolas witness climate change affecting their village in Fthiotida, Greece. With the help of a wise, magical owl named Athena, they learn about greenhouse gases and the importance of clean energy. They take action by promoting solar and wind power, organizing recycling efforts, and planting trees. Their initiatives inspire the community to adopt sustainable practices. Athena shows them a vision of a thriving, green future, reinforcing that small actions can lead to big changes. The story concludes with a festival celebrating their success and a reminder that everyone can be a hero for the planet.

**A sunny day in a beautiful town of Fthiotida, Greece...
Young students are hanging out.**

SUDDENLY CLOUDS HOVER ABOVE EACH ONE OF THEM !!! A STRANGE VOICE IS HEARD FROM ABOVE!

CLIMATE CHANGE IS HERE... OUR EARTH IS GETTING TOO HOT AND THE ENVIROMENT IS IN DANGER!

A smart owl, named Athena appears, speaking with a human voice!!!

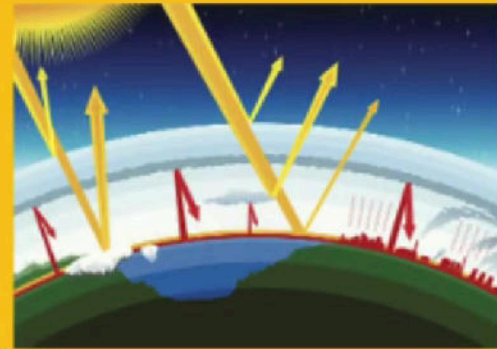

The European Green Deal is your hope, but you must act together!

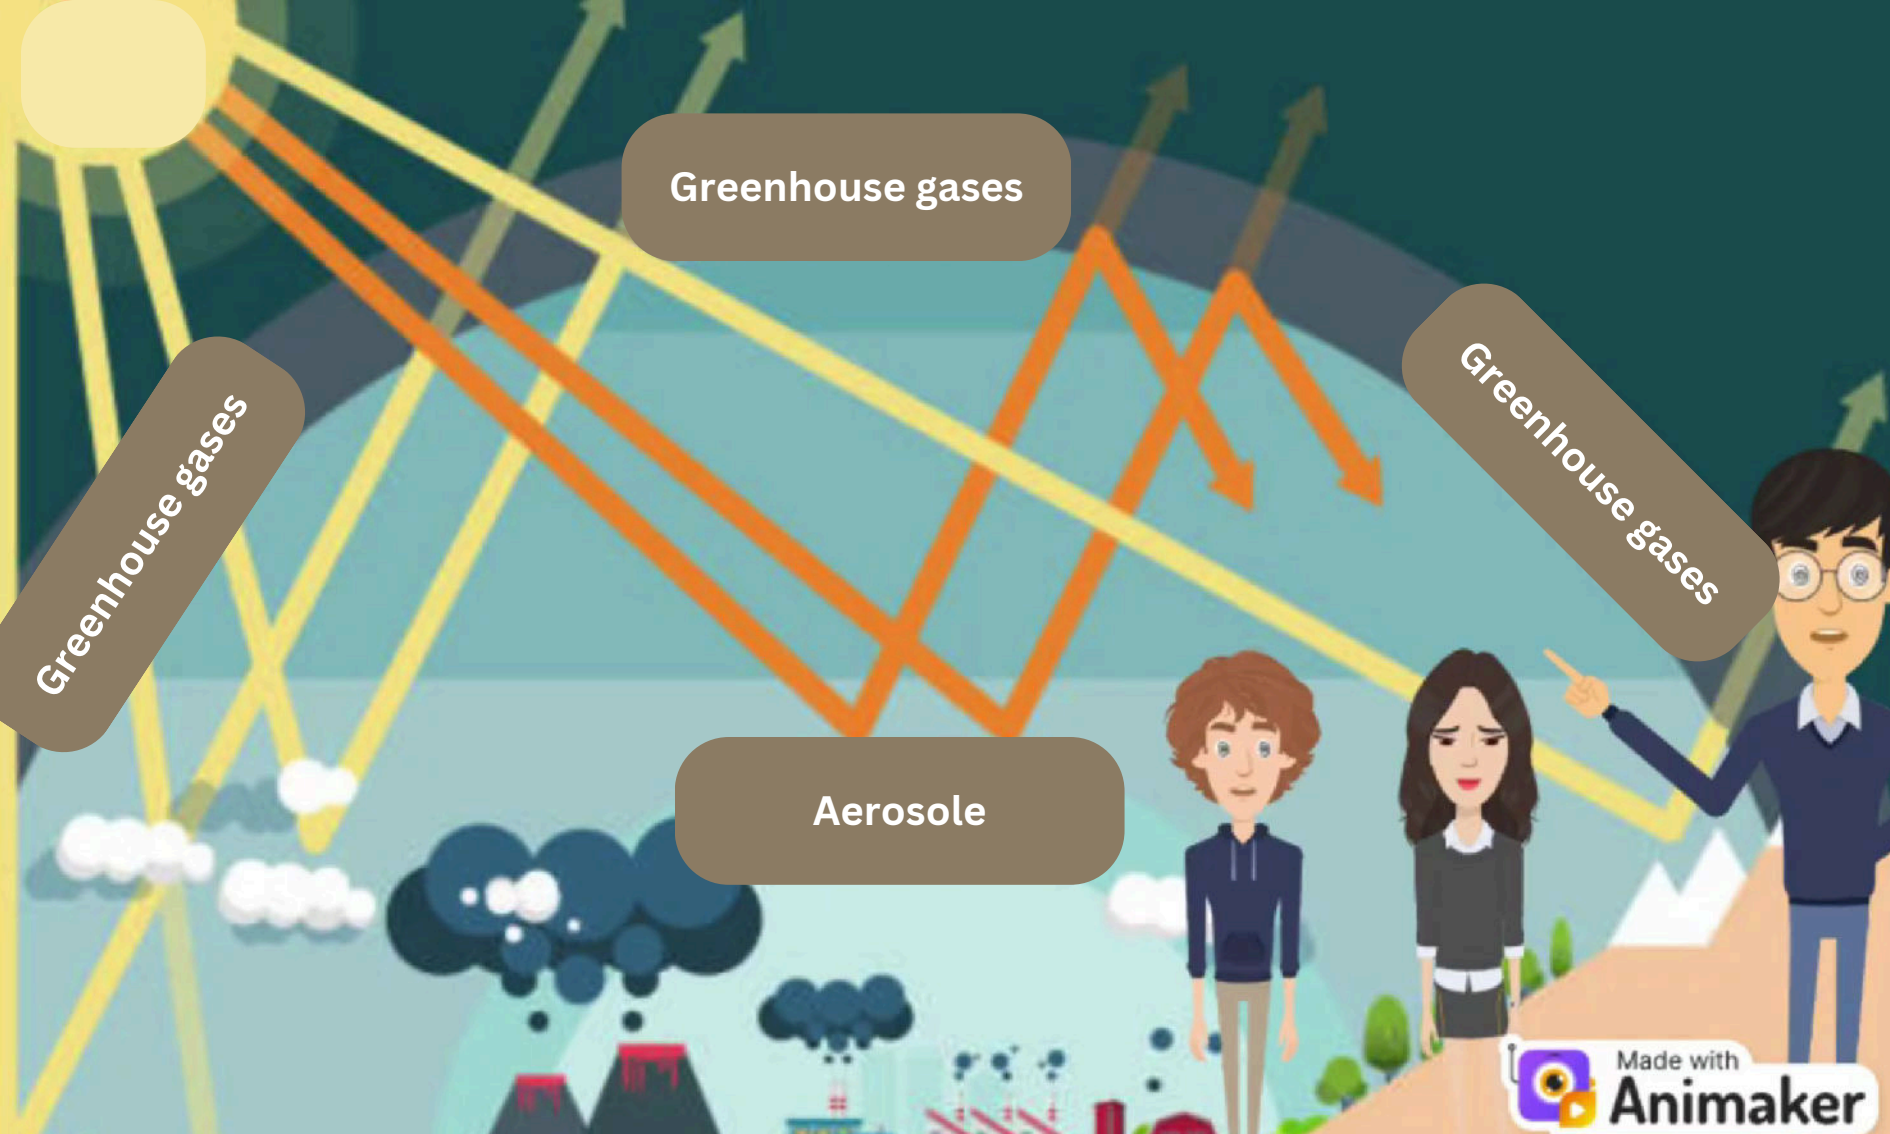

**The European Green Deal ? What is this?
And an OWL is speaking?**

Look inside this magic lens. It demonstrates the **Greenhouse effect**.

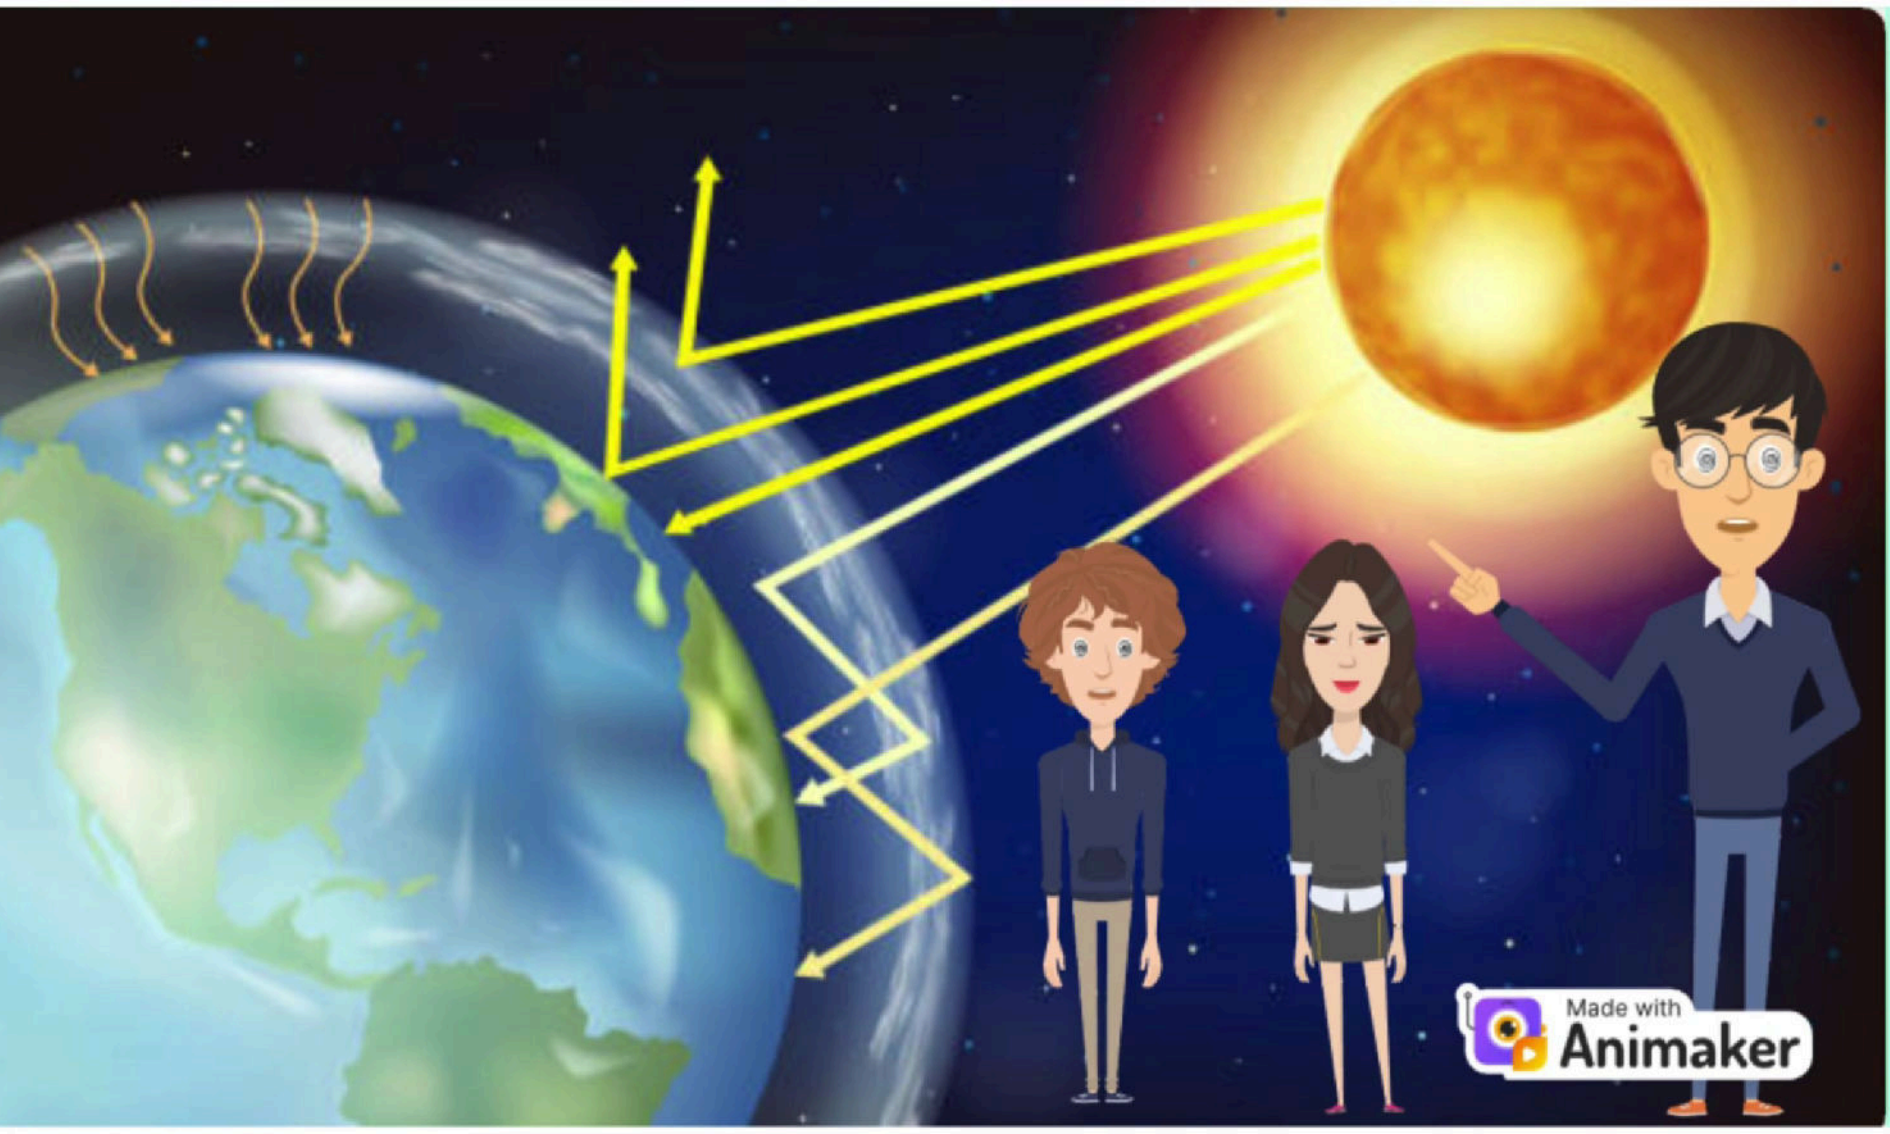

Greenhouse gases

Greenhouse gases

Greenhouse gases

Aerosole

Don't lose hope! Let's take a walk together!

What can we do to prevent it?

Oh my God!!

**Athena reveals that Fthiotida has resources to help:
the sun, wind and fertile land.**

**We can use these
resources to make clean
energy!**

**We could suggest to the local
farmers to install solar panels.**

**How about air turbines?
Let's visit that hill over
there!**

It is the perfect spot for wind turbines!!

Yes!! The wind is really strong here!

Perfect! Let's gather the community and share our ideas!

Good work, kids!!

A few months later...

Solar panels are also ready, producing clean, “green” energy.

The children, proud and happy about all their achievements decide to go for a picnic by the river to celebrate.

But beautiful place they remembered, has become a **dumping ground...**

We should organize a cleanup and demand the building of a recycling center!!

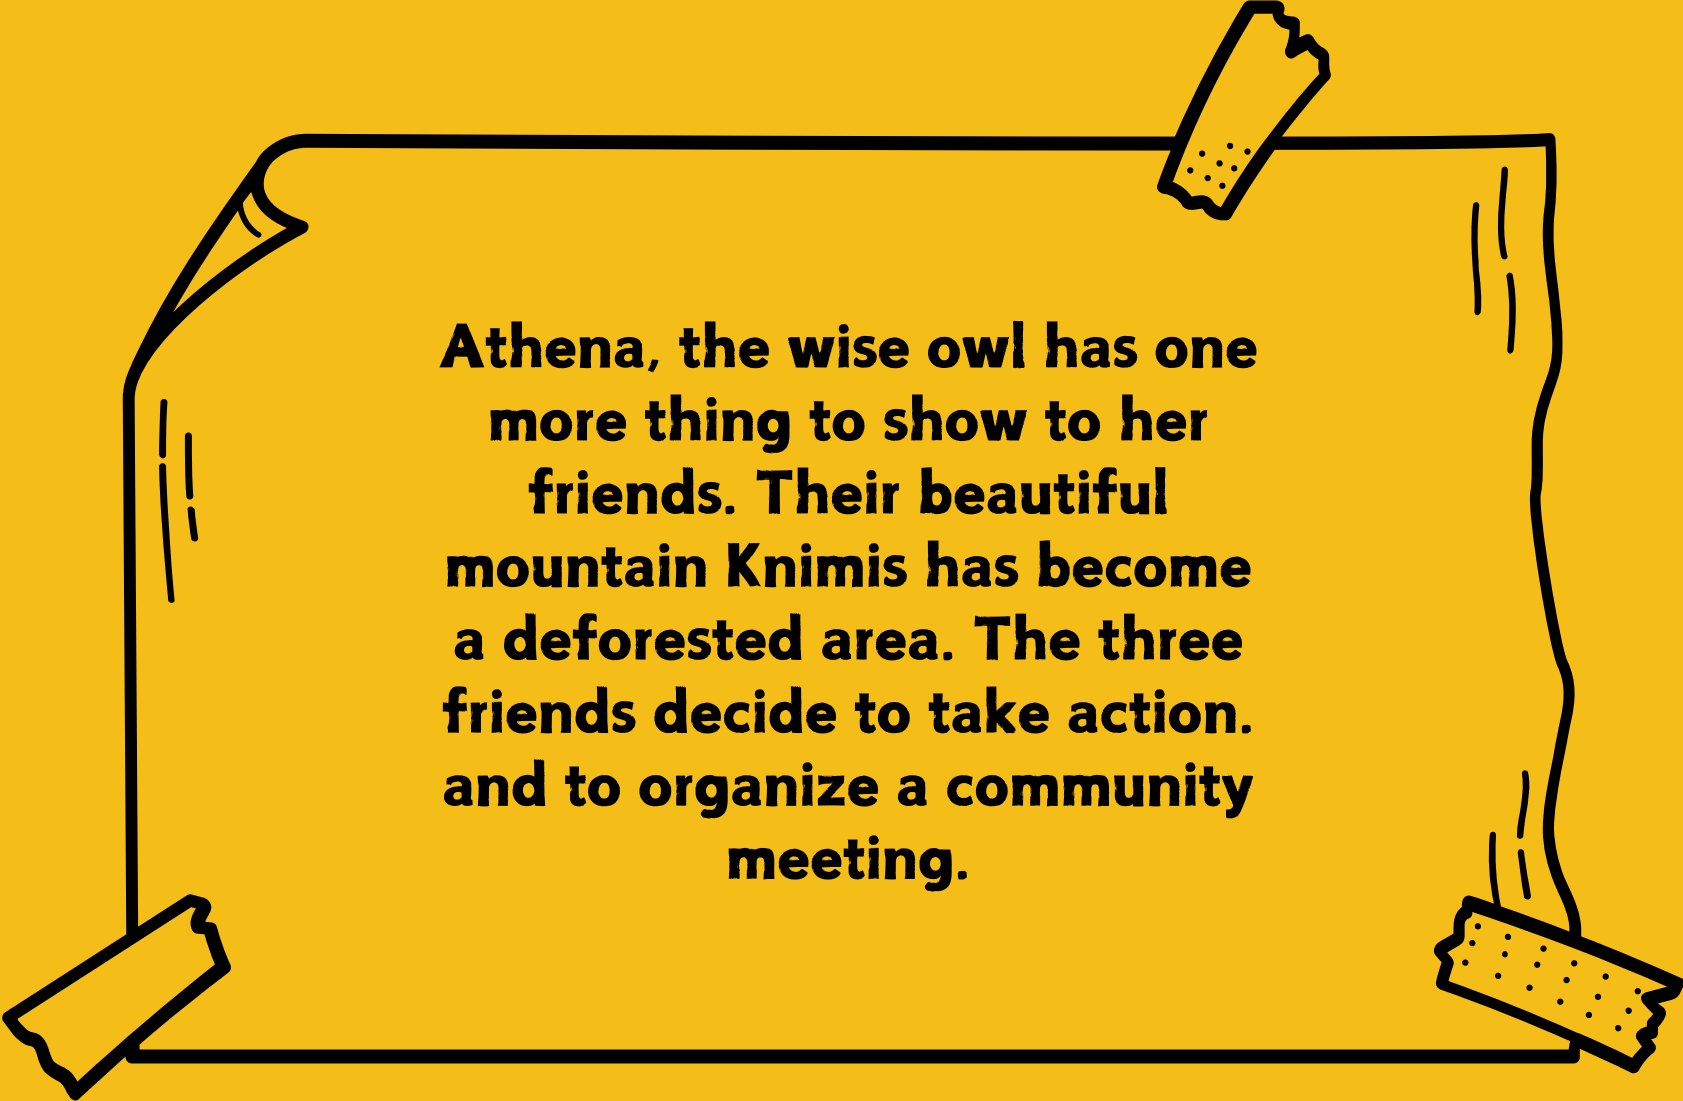

**I totally adore
these kids!!!**

It took some time, but a big recycling unit was built in the area, and many people found work there too.

Now I will bring those kids some seeds to plant trees in the **deforested area** I noticed previously, as i was flying.

Athena, the wise owl has one more thing to show to her friends. Their beautiful mountain Knimis has become a deforested area. The three friends decide to take action, and to organize a community meeting.

O.M.G.!!

For one more time, our wise friend, Athina the owl, was right! We should gather everyone and use the seeds to plant this deforested area!!!

**Well
said!!**

In the community meeting that was held the achievements as well as the new challenges were presented.

**LET'S BIKE OR
WALK INSTEAD
OF USING
CARS!**

**ENERGY-EFFICIENT
APPLIANCES**

RECYCLING

**THE RIVER IS
CLEAN**

**WIND
TURBINES**

**TURNING OFF
LIGHTS**

**SOLAR
PANELS**

**TREES
ABSORB CO2**

A big celebration was held in the coastal town of Fthiotida celebrating green achievements!

Our planet depends on you!

The kids, Athena, and the villagers stand proudly in the transformed town of Fthiotida.

With the European Green Deal, everyone can be a hero!

Keep
protecting
your
home!

Kamena Vourla- Agios Konstantinos Fthiotida GREECE
